Water, the Hub of Life

Water is its mater and matrix,
mother and medium

Water is the most extraordinary substance!
Practically all its properties are anomolous,
which enabled life to use it as building
material for its machinery.

Life is water dancing to the tune of solids

·Water, the Hub of Life

Water is its mater and matrix, mother and medium

Water is the most extraordinary substance!

Practically all its properties are anomolous, which enabled life to use it as building
material for its machinery. Life is water dancing to the tune of solids
